

VS335W WXGA 3LCD Projector

Affordable widescreen HD performance in one portable projector.

3x Brighter Colors¹, and reliable performance — 3LCD, 3-chip technology

One measurement of brightness is not enough — look for both high color brightness and high white brightness. The VS335W has:

Color Brightness: 2700 lumens²

White Brightness: 2700 lumens²

Larger-than-life, widescreen images — high-definition WXGA (1280 x 800) resolution and 16:10 aspect ratio; ideal for HD content

HDMI digital connectivity — HD quality video and audio with just one cable

Simple Setup Suite — a host of innovative features that ensure flexible placement, easy connectivity and convenient control in virtually any setting

VS335W WXGA 3LCD Projector

Affordable widescreen HD performance in one portable projector.

The VS335W widescreen HD projector offers essential business features at a cost-effective price. With a compact design and fast, easy setup, this widescreen HD performer gets you up and running in no time, whether you're presenting in the office or on the road. Offering 3x Brighter Colors¹ than competitive models, Epson® 3LCD projectors ensure bright, compelling presentations. The VS335W delivers brilliant, larger-than-life images with 2700 lumens of color brightness², 2700 lumens of white brightness², and widescreen HD performance. Plus, it includes Epson's Simple Setup Suite with HDMI connectivity and more, for a new level of convenience. Wherever your meetings take you, you'll be ready with the VS335W.

3x Brighter Colors with Epson¹

Brilliant image quality requires high color brightness (color light output), and Epson 3LCD projectors have 3x Brighter Colors than leading competitive projectors¹.

One brightness measurement (lumens) is not enough. A projector's specification needs to show both high color brightness and high white brightness. If color brightness is lower than white brightness, images may be dark, dull and lose detail. If not provided, be sure to ask for a projector's color brightness specification.

COMPETITOR

Actual photographs of projected images from an identical signal source. Price, resolution and white brightness are similar for both projectors (Epson 3LCD and 1-chip DLP competitor). Both projectors are set to their brightest mode.

3LCD – The #1 projection technology in the world

- All 3LCD projectors have both high color brightness and high white brightness
- All 3LCD projectors have 3 chips
- 25% lower power consumption for lower energy costs³
- 20 years of road-tested reliability

Energy-efficient long-life lamp

- Delivers more lumens per watt and lasts up to 6000 hours⁵
- Epson lamps maximize your presentation time, while minimizing your costs

The best-selling projectors in the world

Epson projectors enhance communication and inspire collaboration, while offering high quality, reliability and a low total cost of ownership.

Simple Setup Suite from Epson

Epson projectors offer a host of innovative features that ensure flexible placement and fast, easy setup.

Easy image adjustments — Position your projector almost anywhere and still get a correctly proportioned image with auto vertical correction and easy-slide horizontal image correction.

Convenient lens control — Optimize the image size whether your projector is close to the screen or far away, with the zoom lens.

USB Plug 'n Play instant setup — Use the included USB cable to instantly project content. View your projected presentation on the screen and your computer simultaneously.

HDMI connectivity — Get both audio and brilliant HD video content with just one cable. Compatible with the latest laptops, Blu-ray® and media players.

Quick, smart controls

- Instant Off® — quickly power down the projector, pack up and go
- Sleep Mode (A/V Mute) — pause your presentation without turning the projector off
- Direct Power Off/On — control your projector with the flip of a switch

The more pixels, the better the detail

Resolution defines the level of detail and depth you'll see in a projected image. It's measured as the number of pixels wide by the number of pixels high.

	1.5x more resolution than SVGA	2x more resolution than SVGA
		
SVGA (800 x 600) Meets basic projection needs	XGA (1024 x 768) Ensures sharper detail	WXGA (1280 x 800) Offers high definition and is ideal for widescreen (16:10) displays

Additional Features/Benefits

- **PC-free slideshows** — via a USB thumb drive
- **The ultimate in portability** — compact, lightweight design; take it to the next conference room or even to the client's location
- **Filters to protect your investment** — with easy side access for hassle-free maintenance

- 1 Compared to leading 1-chip DLP business and education projectors based on NPD data, July 2011 through June 2012. Color brightness (color light output) measured in accordance with IDMS 15.4. Color brightness will vary depending on usage conditions.
- 2 Color brightness (color light output) and white brightness (white light output) will vary depending on usage conditions. Color light output measured in accordance with IDMS 15.4; white light output measured in accordance with ISO 21118.
- 3 Data source: ProjectorCentral.com Jan. 2013. Average of 1128 shipping models for which the manufacturers provided lumens and total power data, all resolutions and brightness levels. Energy efficiency was measured as wattage per lumen. It was measured for both 3LCD and 1-chip projectors in each of five brightness segments. 3LCD projectors averaged less required electricity per lumen in each of the five segments.
- 4 Leading 3LCD and 1-chip DLP business and education projectors selected according to NPD data as of July 2013. Independent U.S. research conducted by Radius Research (July 2013); results confirmed at a 99% confidence level.
- 5 ECO Mode is up to 6000 hours. Normal Mode is up to 5000 hours. Lamp life will vary depending upon mode selected, environmental conditions and usage. Lamp brightness decreases over time.
