

Easy to use. Easy to impress.

DELL ADVANCED LASER PROJECTOR – S518WL

Lamp-free, hassle-free

Laser technology lasts for up to 10 years¹ and allows for instant on/off.

Short throw projection

Decrease distracting shadows and glare by placing the S518WL close to the wall.

Cut the cables

Present from a tablet, smartphone or laptop using an app when the S518WL is connected to the network.

PC-Free Presentation

Share without a PC by accessing content from a USB drive or the projector's 7GB² internal memory.

Easy to use. Easy to impress.

DELL ADVANCED LASER PROJECTOR - S518WL

LAMP-FREE. HASSLE-FREE.

- **Project instantly:** Lamp-free laser technology eliminates lag-time with instant on and off, minus warm up and cool down time.
- **Long life:** Say goodbye to replacement lamps. The S518WL has multiple redundant laser banks that can last for up to ten years¹.
- **Any angle, anytime:** The S518WL is engineered to run 24/7, and has a low power consumption, making it perfect for use in demanding environments.

GET CLOSE TO THE DETAILS

- **Short throw projection:** Short throw projection lets you place the projector three feet from your viewing surface, for a more discreet location that won't get in your way. Now you can stand and share with reduced shadows and distracting lights, whether you're in a classroom or a meeting room.
- **Add color to any room:** View a brilliant color gamut of rich, true hues for more realistic images. More than 1 billion colors and 3200 ANSI lumens captures an audience from the start of your presentation to finish.

SEAMLESS AND FLEXIBLE INTERACTIONS

- **PC-free presentation:** No computer? No problem — present your files from a USB drive. Or upload up to 7GB² of files to the projector's memory and present directly from the projector.
- **Cut out cables:** Remove clunky cords and project wirelessly through your school or office network. Connect your projector with a network cable and use the EZCast app on your iOS or Android smartphone or tablet, or the Dell Network Projection app on a laptop to start presenting.

RELIABLE SUPPORT AND SECURITY

Dependable warranty³ options make the S518WL an ideal choice.

- **Comprehensive support:** Your S518WL projector is backed by support with the 2-Year Advanced Exchange Warranty⁴, and the laser system is covered under the same warranty for up to 20,000 hours of use. If you opt to extend your warranty⁴ to 3-, 4-, or 5-years, the laser system is still covered for 20,000 hours use or the term of the warranty.
- **Get the most from your projector:** The laser light source of the projector lasts for up to 20,000 hours of use¹. If the projector is used for 8 hours each working day, it would take up to ten years to reach 20,000 hours¹.
- **Project and protect:** The integrated Kensington security port and password protection functionality help keep your S518WL secure against theft and unauthorized access.
