IN116v

Unbelievable low price. Unbeatable value.

Part #: IN116v

InFocus

Confidently beam your content with the big power and unbeatable value of the InFocus IN116v WXGA projector. This projector is easy to buy and built to perform with high brightness, high contrast ratio and BrilliantColor technology. A compact design and light weight make it as easy to move around as it is to install.

This model is sold out in the Americas. Consider the IN116xa instead.

Key Features

- WXGA (1280 x 800) resolution
- HDMI connectivity
- 3500 lumens
- 10000 hour lamp life in Dynamic Mode
- High 17000:1 contrast ratio
- Display 3D content from Blu-ray, PCs and more
- Compact design and weighs only 5.18 lbs.
- Accurate and vivid color reproduction with BrilliantColor™ technology

High Brightness and High Contrast

The image quality of these projectors does not disappoint. Up to 3500 lumens mean bright, clear images with the lights on and the 17000:1 contrast ratio adds sharpness with darker blacks and whiter whites. Preset modes give you the best image quality on a beige wall, whiteboard, blackboard or other surface.

Eco Blanking

Instantly dim the screen to divert your audience's attention onto you with the Eco Blanking feature on the remote control. Activate when the projector isn't being used and lower the lamp's power usage down to 30%. This saves energy and significantly extends the life of the lamp, which saves you money.

3D Ready

The IN116v supports multiple forms of 3D – including HDMI, Blu-Ray, 3D broadcasting, video games and PC connectivity. All your audience needs are 144Hz DLP Link 3D glasses (not included) to seamlessly synchronize with the image for an awesome 3D experience..

Low Total Cost of Ownership

Our customers benefit from an affordable price, lamps that can last up to an amazing 10,000 hours, and no filters to replace. A longer life and default-free performance keeps operating costs down.

Specifications*
